Can I install TurboTax on multiple computers?

 54 helpful votes

Yes, you can [install and activate the same copy of TurboTax on three different computers.](#)

Note: When you activate the same copy of TurboTax on multiple computers, the *maximum limit* for the total number of tax returns that applies to your copy of TurboTax gets *shared* among your installations.

For example, if your TurboTax includes 8 paid returns and you already filed 3 returns from one computer and 2 from another, you can only file 3 more returns using the third computer (that is, $8 - (3+2) = 3$).
